Hot Deserts

The living world

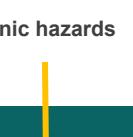

Ecosystems

Coastal
landscapes

The challenge of natural
hazards

Tectonic hazards

Climate change

Weather Hazards

Year
9

How do coastlines
change?

How is China changing?

What are the threats to the
world's oceans?

What are earthquake
hazards?

What are the
opportunities and
challenges in Eastern
Africa?

What are the features of
glacial landscapes?

What are weather
hazards?

What is life like in
hostile
environments?
Russia

What are volcanic
hazards?

How do rivers shape the
landscape?

What are the opportunities and
challenges in the Middle East?

Microclimates
fieldwork

Why are tropical
rainforests important?

Identify longitude and
latitude referring to the
Equator and
Prime/Greenwich meridian

Locational Knowledge
of the seven
continents and 5
oceans

Physical Geography
investigating
weather,
climate zones,
biomes,
volcanoes,
earthquakes and the
water cycles

Identifying countries
and capital cities in the
UK, Europe, North and
South America

Use maps,
atlases and
globes to
locate
countries. Be
able to use an
8 point
compass as
well as 4 and 6
figure grid
references

Human Geography
investigating
settlements, economic
activity, trade links,
and natural resources

Primary
School
